

After Meeting Aaron for the first time, we could sense the knowledge & professionalism we were looking for in a home improvement company. Our home on the Cape is not our primary residence, so we were not present when the work was being done. Needless to say, we were hesitant to have strangers in our home while we were not there, much to the contrary of our fears; the completed work that greeted us when we arrived exceeded our expectations. Not only were our new replacement windows installed beautifully, but it also appeared that nothing had ever been moved. There was no mess to clean up, nor was there anything out of place.

Capizzi also replaced an old bulk head which needed to be replaced from the ground up. They replaced the brick work and framing, then finished it with a fresh coat of protective paint. We do plan on calling upon Capizzi in the future for further home improvements, and would recommend them to anyone who might ask. Thanks again for a job well done.
